

# The Way She Feels

## Between the Trees

She's upset  
Bad day  
Heads for the dresser drawer to  
Drive her pain away  
Nothing good can come of this She opens it  
there's nothing there  
There's only left over tears  
Mom and dad had no right she screams  
The anger runs down both of her cheeks Then she closed her eyes  
And found relief in a knife  
The blood flows as she cries  
All alone the way she feels  
Left alone to deal with all the pain-drenched sorrow relief  
Bite the lip just forget the bleeding Then she closed her eyes  
And found relief in a knife  
The blood flows as she cries Curled up shes on the floor  
Relief left her she had hoped for something more From it (hoped for something more)  
From it  
He leans down to comfort her  
She is weeping and He  
Wraps His arms around  
And around and around and...  
The deeper you cut  
The deeper I hurt  
The deeper you cut  
It only gets worse Gets worse.  
Now shes slowly opening... New eyes... She opened her eyes  
And found relief through His life  
And put down her knives. Then she opened her life  
And found relief through His eyes  
And put down  
She put down her life.
