

Kneel Before Me (feat. Asking Alexandria)

SLANDER, Crankdat & Asking Alexandria

The storm is rolling in
Thunder shakes the bones beneath my skin
Rain pours through
The heavens open
Lift me up
Kneel before me I bring the light into the ground, kneel before me The world is falling in
From it's childrens insatiable sin
To cleanse and clean
Or start this over
Bring to me a new world order Heavy is the crowd on the road, I walk
The vultures circle and the sheep, they talk
I pray for a strain against the pain, I bring
Working off on balance between God and King
I bring the light into the ground, kneel before me
