Shaken

Shiny Toy Guns

Running in circles Chasing pain Of yesterday Shaken... fearful Because I've come Back for what is trouble Still...I will wait it out I will wait it out I will wait it out I will not be shaken Strange calls to meet those Who feel and know How to give up The stage lights And heroes Razor pain Rubbed it all away, love Still...Didn't notice it right away Didn't notice it until it was too late I'm gonna change my desire For your all consuming fire Didn't wanna cry out at night Didn't wanna stop at mid flight I didn't plan for the fall When I was running from it all... Have I no evil Citizen Cain Slowed — my desperate running Still...
