

# Get Me

## Twista

(Intro)

Here i am... here i am  
Here i am... ummm... here i am  
Here i am... come and get me.(Verse 1)  
On a rainy dark day early morn,  
A lethal legacy was born,  
Ask any rapper around  
Bout the fuckin' mics I left torn  
But they won't give me all my P's  
And I wont leave the Chi to get G's  
Got love for my MCs at home  
But some of them still hate on me  
Look how many years I done repped  
Hustled thru the streets and the Go  
Inspired by the first rappers ever  
Signed a contract a decade ago  
Put Chi name on records in the East  
Put Chi name on records in the West  
Put Chi name on records in the South  
B\*\*\*\* how you gone open yo mouth  
To the mutha f\*\*\*\*ers' industry  
Why you hate on me and my city  
Will it be an imbalance of power if ya'll let Chi niggas get G's  
Or is it us holdin' us back  
Think hard when you rollin' yo sack  
Whatever the case my Chi nigga  
If it's in my means I got yo back  
What the f\*\*\*\*'s really going on  
Does he bite cause he know he on  
Don't he know I already established myself as Twista Coleone  
Well I'm holdin my city down  
Aint goin' nowhere here I stand  
You know where I am  
If you hate me (come and get me)  
If you want me (come and get me)  
Here I am  
(Chorus)  
Here i am... ummm... here i am  
Here i am... ummm... here i am  
Here i am... ummm... here i am  
Here i am... come and get me... come and get me(Verse 2)  
What did I do to deserve

All of this madness around me  
 Found me in the studio buryin' myself in work smokin' herb  
 Tried to kick me to the curb  
 To the back  
 To the ditch  
 To the dump  
 To the shack  
 But I sprint  
 In the front  
 In a Lac  
 With a fifth and a blunt  
 And I'm back  
 In the b\*\*\*\*\* wit a pump  
 And I'm ready to bust at you h\*\*s  
 Ready to dump lames in ditches  
 Steady makin' fakers bleed  
 LB family handle business  
 Come and enter Twista's realm  
 Journey wit me thru the pain  
 The hurt just might make you invision drama that can turn you insane  
 How much of my chaos bring tears  
 How many threaten my career  
 How many threaten' to murder me but b\*\*\*\*\* you know where I live  
 Who the f\*\*\* do you think I is  
 Yall aint comin' at no lil shawty  
 Why you think you can't hurt like these years  
 Joe why my lil P's got you soft  
 Think you finna' bring out my fears  
 Tell me why my success make you cry  
 And why my downfalls make you laugh  
 But I bet my hydro got you high  
 Never let hate back me down  
 Stand firm like a man  
 If you want me (come and get me)  
 Wanna kill me (come and get me)  
 Here I am  
 (Chorus)  
 Here i am... ummm... here i am  
 Here i am... ummm... here i am  
 Here i am... ummm... here i am  
 Here i am... come and get me... come and get me(Verse 3)  
 We got geo like Neo and of course we as sourcy as Morpheus  
 Or we as sick as Sir Marcus aralias, alias, atheist  
 Against niggas who flow be the achiest  
 Against the aliens and why they hate me is maybe it's cause I'm controlin' this radius  
 Of this world and this whole universe  
 Don't believe let me spit you a verse  
 Just when you thought you was worse  
 I come wit words that'll make you disperse

My allies know I'm too cold  
My enemies know I spit fast  
My lords know I bust that thang  
My gangsta's know I'll whoop some a\*\*  
Mobster family steady ride  
LB family steady click  
When us and other crews collide  
Choose ya weapon take a pick  
Load up, click clack, it's on  
Finna' bust, get back, run home  
Come at me bogus get whacked wit a strap... to the back of the dome  
Industry niggas get gone  
Heard ya'll be speakin' big words  
I'll show you some s\*\*\* that'll a blow you down, slow you down, like you sip syrup  
It's Chi sacrificial lamb  
Right here I stand firm  
If you hate (come and get me)  
If you want me (come and get me)  
Here I am (Chorus)  
Here i am... ummm... here i am  
Here i am... ummm... here i am  
Here i am... ummm... here i am  
Here i am... come and get me... come and get me
