

# 4Ever

## Dillon

Altering winds swept away what haunts us  
Hidden beneath tattered shadows and shores  
Shifted perspective, changed to the core  
Landscapes we knew exist no longer  
Altering winds swept away what haunts us  
Hidden beneath tattered shadows and shores  
Shifted perspective, changed to the core  
Landscapes we knew exist no longer  
(Interlude x6)  
Where I go? I've lost you
