## Tate McRae

Baby it stung, now it's sweet  
Watching you beg on your knees, oh myyy  
Wipe my tongue cross your teeth  
Just a little taste to remember me by I'm the ice in your glass  
I'm like the sand thru your hands, oh myyy  
Didn't know what you had  
Gotta live with that for the rest of your life I won't won't lie  
Last night I cried a little  
Now I, I'm fine  
Let you push me to the edge, bout to lose my mind Understand it's outta your hands  
Sleep tight where you made your bed  
Last kiss leave your lips blood red  
Burning bridges, breaking dishes, look you made me something..vicious  
Understand it's outta your hands  
Waste my time, better pay me respect  
Last kiss leave your lips blood red  
Burning bridges, breaking dishes, look you made me something..vicious Lil Mosey:  
Baby get you in the bed you goin crazy  
You might stay the night if you lucky that's a maybe  
You the type to love a rich life screamin save me  
This a rolls Royce baby this not a Mercedes Imma show you off come on  
I heard this somethin you want  
Think you my girl I got two more  
But we can see the world an explore I won't won't lie  
Last night I cried a little  
Now I, I'm fine  
Let you push me to the edge, bout to lose my mind  
Understand it's outta your hands  
Sleep tight where you made your bed  
Last kiss leave your lips blood red  
Burning bridges, breaking dishes, look you made me something..vicious Understand it's outta  
your hands  
Waste my time, better pay me respect  
Last kiss leave your lips blood red  
Burning bridges, breaking dishes, look you made me something..vicious I won't won't lie  
Last night I cried a little  
Now I, I'm fine  
Let you push me to the edge, bout to lose my mind Understand it's outta your hands  
Waste my time, better pay me respect  
Last kiss leave your lips blood red  
Burning bridges, breaking dishes, look you made me something..vicious Understand it's outta
